*Christian Pastoral
Support Worker*

Mrs Di Brinkworth

Under DECS Learner Wellbeing Framework there are five dimensions of wellbeing:

Cognitive, Emotional, Physical, Social, Spiritual.

CPS Workers are concerned primarily with the Emotional, Social and Spiritual dimensions of wellbeing.

CHRISTIAN PASTORAL SUPPORT WORKER

C - is for my support base. Anyone who works in the people help business needs their own support base.

P - is the care bit. *I can't stop the war, shelter the homeless, feed the poor, I can't walk on water, save your sons and daughters. I can't change the world and make things fair, the least that I can do is care!*

S - is the part that I provide for teachers and parents/caregivers when asked or sometimes just 'butt' in. One of my strengths is lurking with intent, just hearing bits of stuff and putting it together in a helpful way. One of the things that happen in this job, is that one often finds oneself in the right place at the right time.

W - is for the contribution I make to our school community.
