STUDENT RECOGNITION AWARDS

FROM THE PRINCIPAL

Dear Parents/Caregivers,

CELEBRATING OUR ANCILLARY STAFF

Week 4 this term is SSO Recognition Week with the theme of ‘SSOs – A Vital Link to Students’ Educational Pathways’.

Our School Services Officers (SSOs) are highly valued members of our staff team, each bringing a unique contribution to the school.

All of our Ancillary Staff are multi-skilled individuals undertaking roles ranging from office management, finance management, first aid, curriculum support, information technology, resource management, managing the grounds and facilities, special education support and, at times, surrogate parents/caregivers.

I would also like to take this opportunity to acknowledge and thank the following people for their dedication and hard work here at the Hub:

• Canteen Managers Janet Matthews and Trish Brewer
• Pastoral Care Worker Di Brinkworth
• IT Technician Kevin Jesshope
• Out of School Hours Care Director and Assistant Director April Mears and Paula Files and the OSHC staff.

We are most fortunate to have such amazing personnel here at the Hub to support our school community. Congratulations to each and every one of them.

Principal

**HEALTH AND MEDICATION**

If your child requires medication during school time, please send their **labelled** medication to school and we will supervise your child taking their medication.

Medication will not be given without a consent form (available from Front Office) being completed, signed and returned with the medication in its original, chemist-labelled container (including the child’s name and the dosage required). It may also be necessary for a Care Plan to be completed by the child’s doctor.

Front Office Staff will ensure the medication is stored safely. Medication MUST NOT be kept in classrooms or school bags.

**Oliphant Science Awards**

This year we have 23 projects in the state’s Science Oliphant Awards. These projects are across several different categories and the students have been very busy getting them ready for this month. The main judging day is Saturday, August 22nd, but there is to be an Open Day on Sunday, August 23rd from 12 to 4pm. If you would like to support our students and view their projects then it is a great event to attend with the family. There are interactive science sessions to participate in as well as all of the state’s projects on display.

**Buttons**

Do you have any spare or old buttons that you don’t need? I am trying to create a collection of buttons to be used as a Science resource for the Year 7 students at our school, this year and in the future. If you have any buttons you would be willing to donate to our collection could you please send them to school with your child? I will place a container in Room 18 for them to go in.

Thank you in advance,

**Charlene McGrath**  
Yr 6/7 Teacher
MATHS @ THE HUB

At the Hub many classes are looking at measurement within maths at the moment. I visited Room 10 while they were talking about capacity. I heard some great ideas about why learning about capacity is important and why you need to know how much a container fills, including the fact that ‘you don’t want water to go all over the floor’. As well as capacity, the students have been very busy doing lots of different types of measurement.

The Australian Curriculum states that students in Year 1 - order objects based on lengths and capacities using informal units and in Year 2 - order shapes and objects using informal units. Check out some of Room 10’s great work!

Great work Room 10, Mrs Williams, Mrs Clark and Mrs Cook.
