Hubcaps- What We Believe In

What is the mission and philosophy of Hubcaps?

Why are we doing this?

Well... it’s not about Global Warming, or Rainforest Preservation, or Curing Disease or addressing World Poverty, as noble as these concerns are.

Hubcaps is about... Providing opportunities for kids to compete in a national sporting program called the Human Powered Vehicle Super Series, or Pedal Prix.

That’s it in a nutshell!

Our commitment as the Hubcaps Committee to providing that opportunity for kids at the Aberfoyle Hub R-7 School dates back to 1997.

Since then, year by year we have worked hand in glove with the Aberfoyle Hub R-7 School Management to promote and uphold the school values of Relationships, Friendships, Responsibility and Respect, and to achieve the following.

“To ensure that for students at Aberfoyle Hub R-7 school who are prepared to invest the time and effort required, should have the opportunity to compete in Pedal Prix, irrespective of their natural sporting ability”

It’s that simple really.

Through the years we’ve had a lot of success, and we’ve been able to grow as a community to offer opportunities to students at Aberfoyle Park High School (APHS) as well, and that’s great.

Our core business has always been and will remain however, a principal commitment to the students of Aberfoyle Hub R-7 School, who have been our partners on the journey so far.
